SUMMARY OF INTERVIEW

Applicants thank the Examiner for the telephonic interview conducted on November 19, 2009. Present were Examiner Zohreh Fay and attorney Ryan Melnick. Applicants discussed the deficiencies of U.S. Patent No. 6,015,815 with respect to the pending claims and in particular that the claimed compounds are structurally distinct from the compound disclosed in the '815 patent. Applicants also pointed out that those of skill in the art would be disinclined to use polyethylene glycol for ophthalmic injection.
